**ETATRON D.S.**  
Pompe Dosatrici – Metering Pumps

MADE IN ITALY

## DLX a DLXB solenoid dosing pumps

### Technické funkce

Flow rate:	from 1 to 20 l/h
Maximum pressure:	up to 20 bar
Power supply:	220/240 V, (50/60 Hz)
Stroke rate:	160 impulses/minute maximum
Pump head:	PP (optional PVC, stainless steel 316, PTFE)
Diaphragm:	PTFE
External casing:	PP
Installation kit:	suction strainer, injection valve, 2m tubing

The more efficient pump series is characterized by a higher comfort of operation connected in most cases with digital and microprocessor control. The pumps are equipped with various functions depending on their type ranging from frequency setting to measured value-dependent dosing (e.g. pH, Rx, conductivity, free chlorine). These pumps thanks to their type variability and favorable price find their use in all sectors of industry. Ingress protection of IP65, standard power supply of 230V, 50/60 Hz.

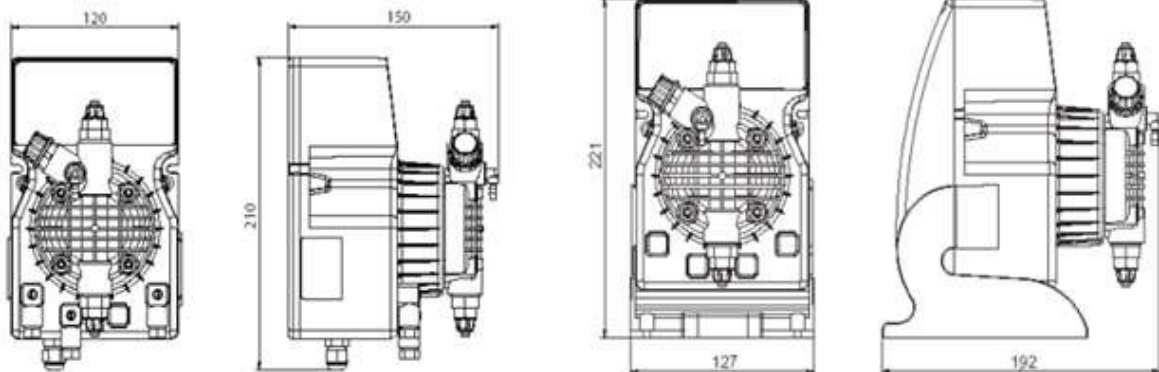

DLX – wall-mounted

DLX-B – stand-mounted
